DEPOSITION OF ALAN J. SNYDER, Ph.D.

22

New York, New York

23

Friday, August 20, 2004

24

Reported by:

25

Adrienne M. Mignano

JOB NO. 163955

1 A. J. Snyder, Ph.D.

2 Q. And one of the ways that, I think
3 in your opinion, it would have been obvious
4 to do this would have been to start with a
5 tube; is that correct?

6 A. That's correct.

7 Q. And once you started with this
8 tube, what would have been the obvious way to
9 manufacture the device in your opinion?

10 A. If you started from a tube,
11 probably laser cutting would have been an
12 obvious way to do it. Electrical discharge
13 machining would be another way to do it.
14 There may have been e-beam cutting operations
15 at the time. Water cutting, photo etching.
16 There are a lot of ways to cut slots that
17 size in a tube.

18 Q. And those were all conventional
19 manufacturing techniques in 1985?

20 A. I don't know that every one of them
21 that I've mentioned were available, but
22 techniques to cut apertures of that size were
23 available.

24 Q. Okay.

25 And in doing that, you would have

1 A. J. Snyder, Ph.D.

2 expanded metal is a good material from which
3 to make it. But that doesn't mean it is
4 expanded metal.

5 Q. I understand your problem with my
6 question.

7 In 1985, when a person of ordinary
8 skill in the art was reading Ersek, in your
9 opinion, it would have been obvious to him to
10 make this device different from the ways that
11 are disclosed in the Ersek patent?

12 A. Yes.

13 Q. And one of those obvious ways would
14 have been to start with either a sheet of
15 metal or a tube and cut slots into it?

16 A. One would understand one would get
17 the same mechanical behavior, yes.

18 Q. And that would have been something
19 that was obvious to a person having ordinary
20 skill in the art in 1985?

21 A. Yes.

22 Q. And, again, there is nothing
23 magical or novel, new, about taking metal and
24 removing part of it to make slots in 1985?

25 A. Yes. Again, if you're not, as long

1 A. J. Snyder, Ph.D.

2 as you're not using this as being relevant on
3 claims that have to do with manufacturing
4 methods. If we're talking about mechanical
5 behavior, yes.

6 Q. Okay.

7 Turning to paragraph 64 of your
8 report. Actually, I'm sorry, if we could
9 turn to paragraph 63 on the previous page.

10 You talk about in the first
11 sentence how the Ersek device is presized --
12 I'm sorry, that the examples in the Ersek
13 patent are presized to approximately a
14 diameter of the lumen and the graft.

15 Do you see that?

16 A. Yes.

17 Q. What did you mean by that being
18 presized?

19 A. What I meant is that the Ersek
20 teaches that one should choose a first
21 diameter that, choose a first diameter that
22 needs to fit inside the vessel. Now, if one
23 is doing an anastomosis as shown on the cover
24 sheet of Ersek, if you start out with
25 something too small, you're going to have

Defendant.)	

MEMORANDUM ORDER

At Wilmington this 25th day of April, 2007, having reviewed plaintiff's motion for reconsideration and the papers filed in connection therewith;

IT IS ORDERED that said motion (D.I. 295) is granted in part and denied in part, for the reasons that follow:

1. The purpose of a motion for reconsideration is to "correct manifest errors of law or fact or to present newly discovered evidence." Max's Seafood Cafe ex-rel. Lou-Ann, Inc. v. Quinteros, 176 F. 3d 669, 677 (3d Cir. 1999). Therefore, a court may exercise its discretion to alter or amend its judgment if the movant demonstrates one of the following: (1) a change in the controlling law; (2) a need to correct a clear error of law or fact or to prevent manifest injustice; or (3) availability of new evidence not available when judgment was granted. See id.

2. Plaintiff argues that its motion for reconsideration is justified under the above standard because defendant "has recently identified new evidence - its alleged

workaround and the 'months of design work and pilot testing' that preceded it - that was not previously made available to IMX." (D.I. 296 at 2-3) Plaintiff also identifies a series of district court opinions from other districts where permanent injunctions were issued prior to a conclusion of the appeal process. (Id. at 6) Finally, plaintiff requests an opportunity to pursue discovery and attaches to its motion some exhibits which purport to demonstrate that defendant has experienced a "significant revenue growth that will continue unabated" absent the imposition of an injunction. Plaintiff argues in this regard "that it has already become nearly impossible for [it] to compete or otherwise continue its present business practices as a result of [defendant's] ongoing, infringing conduct." (Id. at 4)

3. I find the above arguments less than persuasive and, therefore, I decline as a matter of discretion to grant plaintiff's request for the imposition of a permanent injunction at this juncture. In the first instance, it is nonsensical for plaintiff to use, as its justification for filing a motion for reconsideration, defendant's representation of a workaround, and then argue (with no supporting evidence of record) that it cannot compete with and, therefore, is suffering irreparable harm because of defendant's "ongoing, infringing conduct." Either defendant is no longer infringing, in which case the imposition of a permanent injunction is not necessary, or defendant has not changed its conduct, in which case there is nothing new of record that justifies this motion for reconsideration.

4. With respect to the cited cases from other jurisdictions, for the most part, the facts of these cases are distinguishable from those at bar.

a. For instance, none of the cases apparently involves a situation in

which the judge has determined that the question of infringement was a close one, as I have here. (D.I. 291 at 40)

b. Some of the courts cite as their paramount consideration the fact that the parties were direct competitors in a developing market with a small customer base. See, e.g., Tivo Inc. v. Echostar Communications Corp., 446 F. Supp. 2d 664 (E.D. Tex. 2006); Transocean Offshore Deepwater Drilling, Inc. v. Global Santafe Corp., 2006 WL 3813778 (S.D. Tex. Dec. 27, 2006). Plaintiff has presented no specific evidence relating to the health or character of the relevant market, but certainly the record supports a description of the customer base as significant.

c. Several of the courts cite as support for their decision to impose an injunction the fact that a defendant's cessation of the infringing conduct will not drive a defendant out of business or otherwise work any specific hardship. See e.g., Wald v. Mudhopper Oilfield Services, Inc., 2006 WL 2128851 (W.D. Okla. July 27, 2006); Black & Decker Inc. v. Robert Bosch Tool Corp., 2006 WL 3446144 (N.D. Ill. Nov. 29, 2006). Given plaintiff's argument that the LendingTree Exchange is responsible for the capture of market share and increased revenues, and without any specific evidence relating to this issue, it is not clear to me whether the cessation of the infringing conduct (assuming it is on-going) would result in significant hardships to defendant or the public.

d. Finally, there are cases in which the courts cite to specific evidence presented by plaintiff relating to such factors as plaintiff's loss of market share, impact on customer relations, etc. See e.g., Rosco v. Mirror Lite Co., 2006 WL 2844400 (E.D.N.Y. Sept. 29, 2006). Although plaintiff has presented argument relating to these factors, plaintiff has not submitted any evidence within its own control concerning its

financial situation; instead, it has belatedly requested discovery from defendant. In my estimation, plaintiff has provided too little information to justify the relief requested.

5. I agree with plaintiff, however, that the damages award should take into consideration defendant's admission that it continued the conduct examined during trial until September 14, 2006. Therefore, **on or before May 14, 2007**, defendant shall produce an accounting of the number of qualification forms it has transmitted between November 20, 2005 and September 14, 2006. The judgment entered in this case shall be amended accordingly to award damages commensurate with the amended record of defendant's infringing activities.

C.A. No. 99-904-SLR

PLAINTIFFS' MOTION TO CLARIFY THE JUDGMENT

Pursuant to Federal Rule of Civil Procedure 60, plaintiffs Scimed Life Systems, Inc., Boston Scientific Scimed, Inc., Boston Scientific Corporation, and Medinol Ltd. (herein "BSC/Medinol"), respectfully move this Court for entry of an Order amending the judgment in this action to clarify that the amount paid to satisfy the judgment should include prejudgment interest based on the prime rate compounded monthly. In support of this motion, BSC/Medinol states as follows:

1. After months of negotiation over other issues relating to the payment of the judgment, BSC/Medinol believes that the defendants, Johnson & Johnson, Cordis Corporation, and Johnson & Johnson Interventional Systems, Inc. (herein "Cordis"), were in agreement that such prejudgment interest should be applied to the judgment. This is evidenced by a letter from Cordis' counsel to BSC/Medinol's counsel, which is attached as Exhibit A, that contains Cordis' calculation of updated damages including interest. Although BSC/Medinol requested that Cordis specifically confirm in

writing that prejudgment interest should be applied to the judgment, to date Cordis has failed to do so. Out of an abundance of caution, therefore, BSC/Medinol requests that the Court make this clarification to the judgment.

2. Based on a jury verdict rendered on September 7, 2001, the Court entered its final Judgment in this case on September 27, 2002. The jury found Cordis' Corinthian Stent infringed claim 13 of United States Patent No. 5,972,018 and that BSC/Medinol was entitled to damages for such infringement. (D.I. 259, at 5, 11-12). The Court entered the jury's verdict and awarded the amount of damages found by the jury. (D.I. 284). The jury was specifically charged that their verdict should not take interest into account. In particular, the Court instructed the jury that "[n]either party's calculations include interest. Therefore, in arriving at your damages calculation, you should not consider interest in any way, because it is the function of the Court to award interest." (D.I. 272, at 2221:19-22).

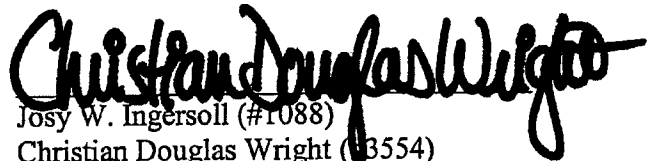

3. Under 35 U.S.C. § 284, the damages awarded for patent infringement should "in no event [be] less than a reasonable royalty for the use made of the invention by the infringer, *together with interest and costs as fixed by the court.*" 35 U.S.C. § 284 (emphasis added). The United States Supreme Court has held that "prejudgment interest should be awarded under § 284 absent some justification for withholding such an award." *General Motors Corp. v. Devex Corp.*, 461 U.S. 648, 657 (1983). In the present case, the Court never specified any reason to withhold an award of prejudgment interest.

★ ★ ★

Accordingly, to facilitate payment of the judgment, BSC/Medinol respectfully request the Court amend the Judgment in this action to clarify that the amount paid to satisfy the judgment should include prejudgment interest based on the prime rate compounded monthly. The parties are

still negotiating over the amount due BSC/Medinol for sales that occurred after the jury verdict, and BSC/Medinol reserves the right to petition the Court at a later time for an award of such damages.

C.A. No. 99-904-SLR

ORDER

At Wilmington, this ____ day of _____, 2003, the Court having considered the parties' arguments regarding the Motion to Clarify Judgment submitted by plaintiffs Scimed Life Systems, Inc., Boston Scientific Scimed, Inc., Boston Scientific Corporation, and Medinol, Ltd., and finding that the relief sought is just and should be granted;

IT IS HEREBY ORDERED that the judgment in this action shall be AMENDED to state that the amount paid to satisfy the judgment should include prejudgment interest based on the prime rate compounded monthly, and

IT IS HEREBY FURTHER ORDERED that the Clerk of the Court take such steps as are necessary to reflect the amendment of said judgment on the record of this action.

Defendants.)

O R D E R

At Wilmington this 20th day of April, 2004, having reviewed plaintiffs' motion to clarify the judgment, and the papers submitted in connection therewith;

IT IS ORDERED that said motion (D.I. 308) is granted, as follows: The clerk of court shall amend the judgment in this action to state that the amount paid to satisfy the judgment shall include prejudgment interest based on the prime rate compounded monthly.¹

¹The court notes that it is in agreement with defendants' position that prejudgment interest shall be calculated consistently in all the cases involving these parties. Therefore, by asking for the higher rate in the instant

United States District Judge

litigation, plaintiffs' shall be paying the higher rate in other litigation if judgment is entered against them. (See D.I. 310)
